

Reconditioned Scraper Wheels

- ◆ We will take your damaged scraper wheels and recondition them with a new rim base with reinforced extra heavy duty back section.
- ◆ We recondition the bearing surface to original specifications.
- ◆ Stud holes, air holes and oil fill holes are redrilled exactly according to original specifications.
- ◆ Sub-arc welding for maximum strength.
- ◆ Leak testing to assure quality before tire fitment.
- ◆ Scrapers reconditioned include: Cat 621, 623, 627, 631, 637, 641, 651 and 657; in all models.
- ◆ Full 3 year warranty covering materials and workmanship.
