

OTR HISTORY

OTR Wheel Engineering is a rapidly growing company that was established in 1987. OTR is engaged in the manufacture and distribution of wheels, tires and mounted tire/wheel assemblies used on "off the road" equipment. OTR produces high quality products to meet customer requirements on a global scale. OTR also sources products from a variety of international wheel and rim suppliers.

OTR Wheel Engineering is a supplier to the U.S. military and military contractors for a variety of military wheels and wheel parts.

OTR sources, manufactures, packages and ships according to military requirements. We also custom manufacture some obsolete and out of production wheels for older military equipment.

Product Families

- Tires
- Wheels
- Mounted Tire/wheel assemblies
- Foam fill options
- Cast hubs, spindles, and machined components
- Castings
- Rubber Tracks

Tire & Wheel Applications

- Articulated Dump Trucks
- Tractors
- Lawn & Garden, ATV
- Aerial Work Platforms
- Skid Steers
- Telescopic Handlers
- Military
- Ground Support Equipment
- Mining
- Logging
- Agricultural
- Earthmoving
- Construction

Why Choose OTR Wheel Engineering?

“OTR Wheel Engineering Customer Advantages”

- Competitive Pricing
- Single source for all tire, wheel and assembly component needs.
- Just-In-Time delivery programs for tire and wheel mounted assemblies.
- Purchase from domestic and global sources
- In house manufacturing capabilities.
- Out source manufacturing resources.
- Global integration capabilities
- Export and import capabilities
- 3D Engineering drawing, modeling and FEA analysis.
- Ultrasonic weld testing.

OTR Wheel Engineering Inc. warrants to the original purchaser that the OTR Wheel Engineering Inc. wheel is free from defects in material and workmanship excluding finish for a period of one (1) year from the date of manufacture stamped on the wheel. OTR Wheel Engineering Inc. does not warrant and will not replace any wheel, which has been subjected to misuse or abuse including, without limitation, the following.

- Using a tire which is oversized according to standards recommended by the European Tire and Rim Technical Organization (ETRTO) & Tire and Rim association (T&RA).
- Loading the wheel beyond the applicable maximum wheel load as specified by OTR Wheel Engineering Inc.
- Inflating beyond the applicable maximum as specified by OTR Wheel Engineering Inc. Changing the original condition of the wheel by alteration or by subjecting it to any processing, such as welding or straightening.
- Defects resulting from other components, accidents, excessive speed or other abnormal or other severe operating conditions.

OTR Wheel Engineering Inc.'s obligation under this warranty is limited to the replacement of any product that proves to be defective with a wheel of like size and type, FOB OTR Wheel Engineering Inc.'s production plant, freight collect.

OTR Wheel Engineering Inc. reserves the right to inspect parts for which warranty claims are filed, and if necessary, associated vehicles and their maintenance records. Parts for which warranty claims are filed must, upon request, be returned to OTR Wheel Engineering Inc., with transportation charges pre-paid.
